# 1. What teachers do

Teachers enter scores, attendance, domain ratings and remarks for their classes, and print report sheets. You only see the **Academics** pages.

## Signing in

1. Open the address given by your school (for example **http://192.168.1.10:8080**) in any browser on the school network.
2. Type your username and password and press **Sign in**.
3. Use the **Password** button at the top to change your password, and **Sign out** when you finish.
4. The **User manual (PDF)** button downloads this guide again.

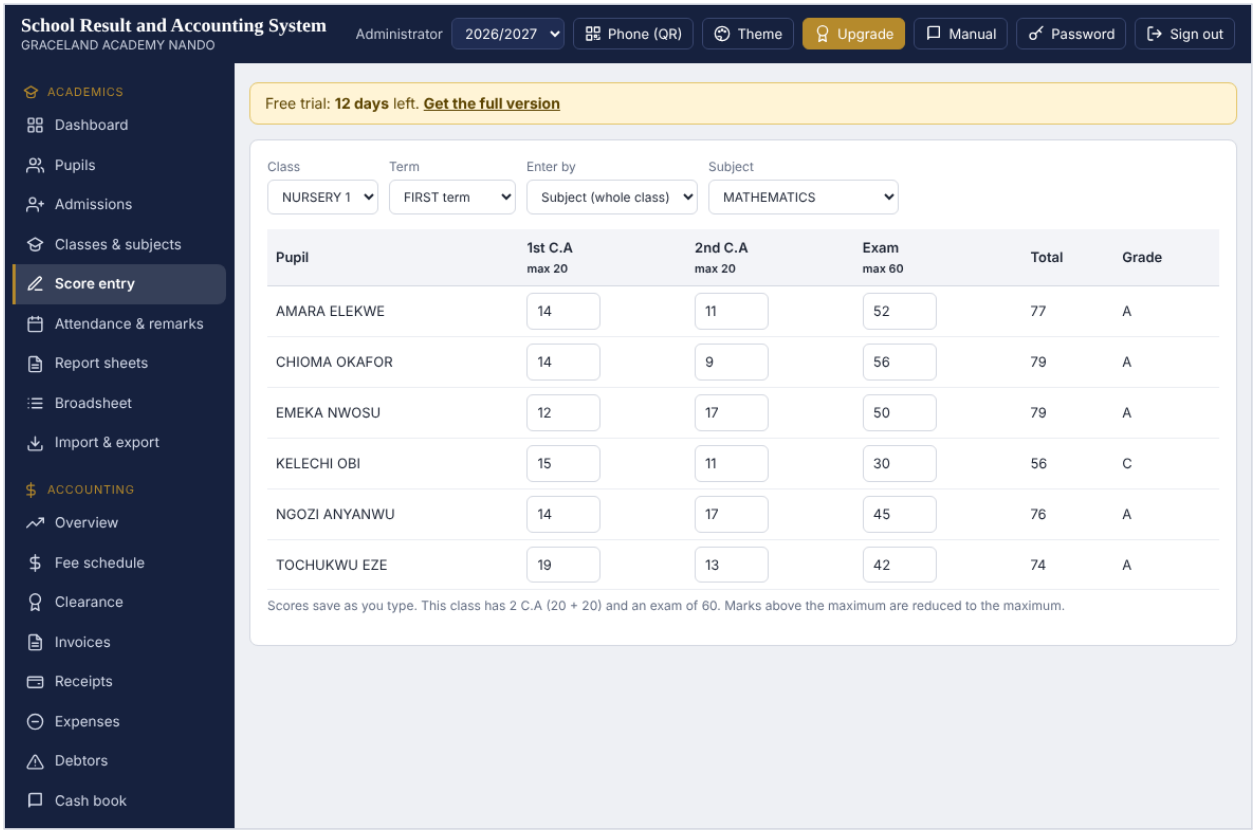

Teacher dashboard: how many pupils in each class already have results for each term.

# 2. Entering scores

Open **Score entry**. Choose the **class**, the **term** and how you want to enter:

- **Subject (whole class)**: pick a subject and type every pupil's marks. Fast for one subject at a time.
- **Pupil (all subjects)**: pick a pupil and fill every subject. Good when marking one script bundle.

Type **1st C.A** (maximum 20), **2nd C.A** (maximum 20) and **Exam** (maximum 60). The total, grade and remark appear at once and everything saves automatically. The note under the table says *All changes saved* when finished. A mark above the maximum is reduced to the maximum.

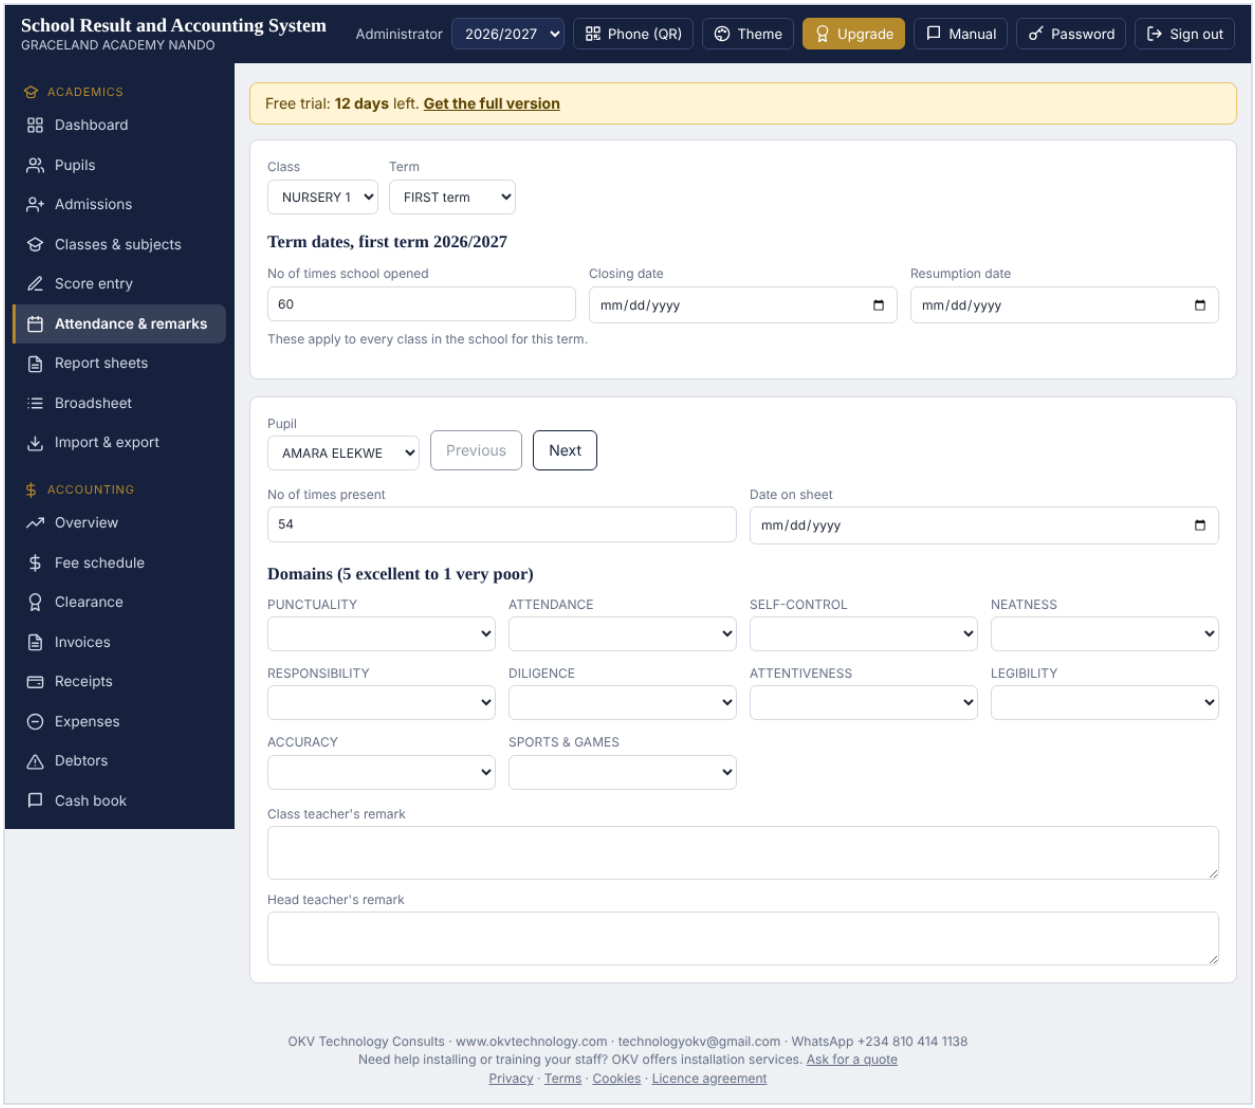

Score entry by subject.

## Grading scale

| Total | Grade | Remark |
|---|---|---|
| 70 and above | A | Excellent |
| 60 - 69 | B | Very Good |
| 50 - 59 | C | Good |
| 45 - 49 | D | Fair |
| 40 - 44 | E | Poor |
| 0 - 39 | F | Fail |

# 3. Attendance, domains and remarks

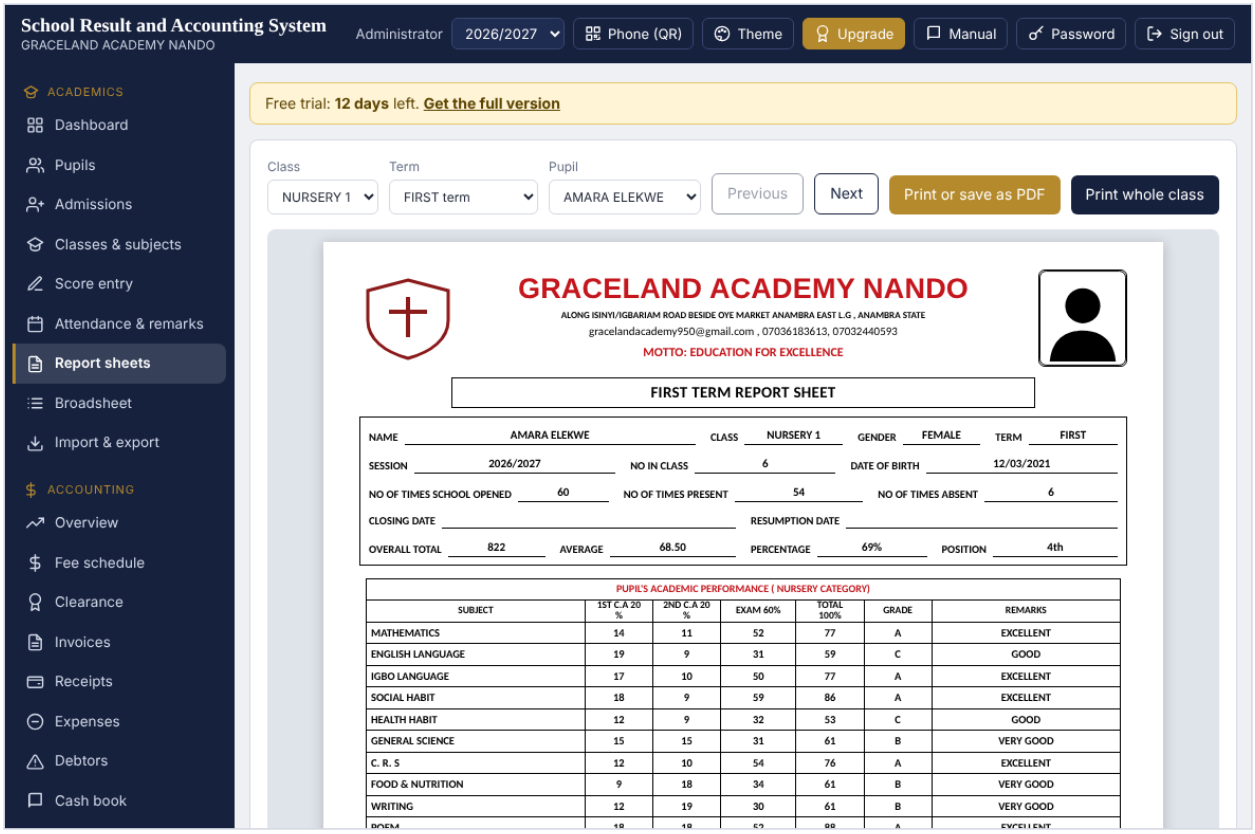

Open **Attendance & remarks**. At the top, set the term's **times school opened**, **closing date** and **resumption date** (these apply to the whole school, so only one teacher needs to do it). Then pick a pupil and enter the **days present**, rate each domain from 5 (excellent) to 1 (very poor) and write the class teacher's remark. Use **Previous** and **Next** to move through the class. The head teacher's remark can be added here too.

Attendance, domain ratings and remarks for one pupil.

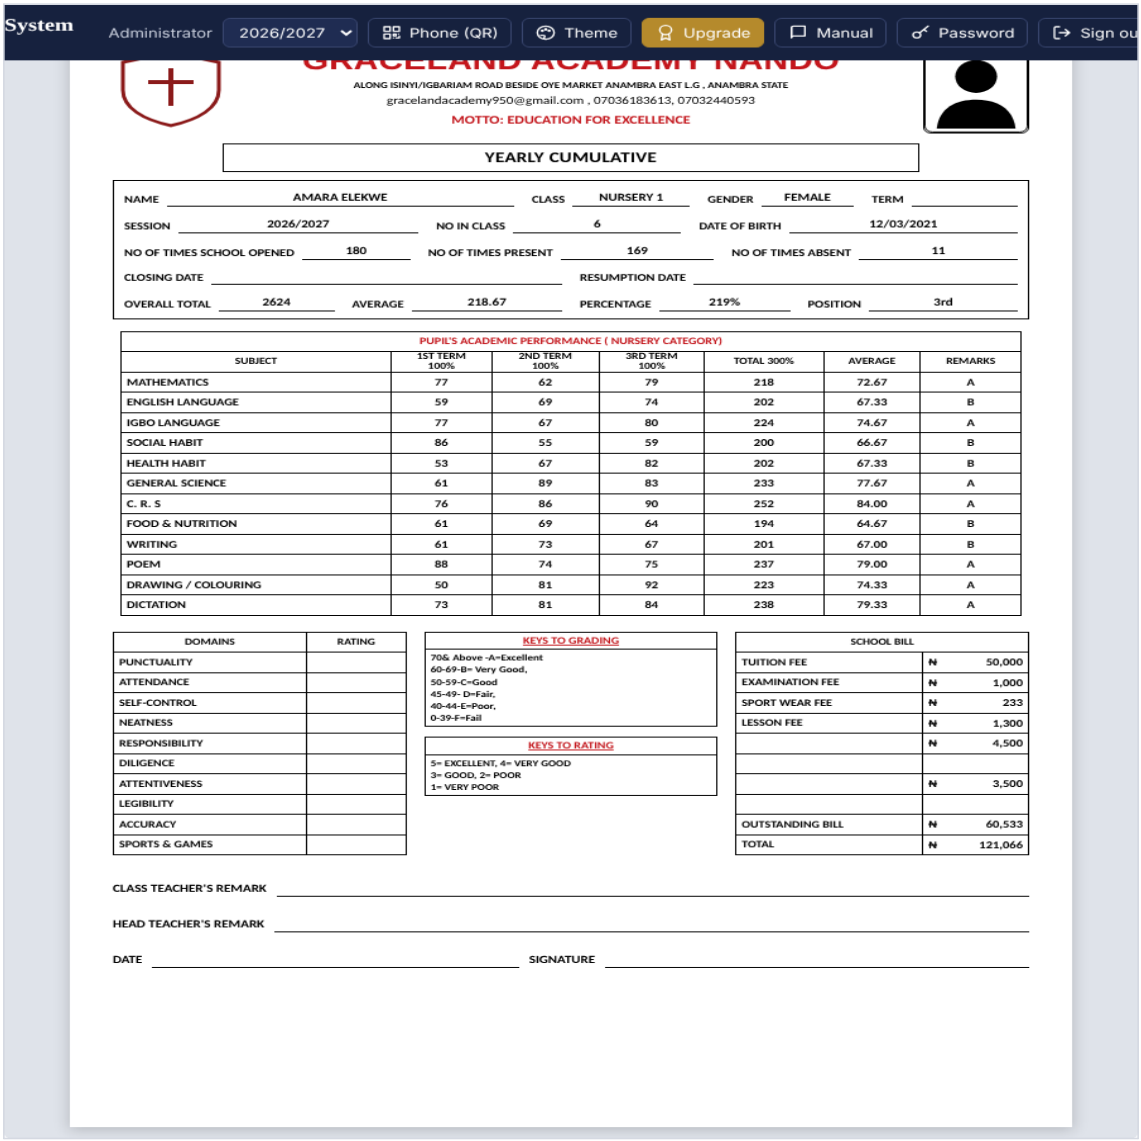

# 4. Report sheets

Open **Report sheets**, choose the class, the term (First, Second, Third or **Yearly cumulative**) and the pupil. The sheet shows the pupil's total, average, percentage and position in class. Press **Print or save as PDF** for one pupil or **Print whole class** for every pupil.

Report sheet preview.

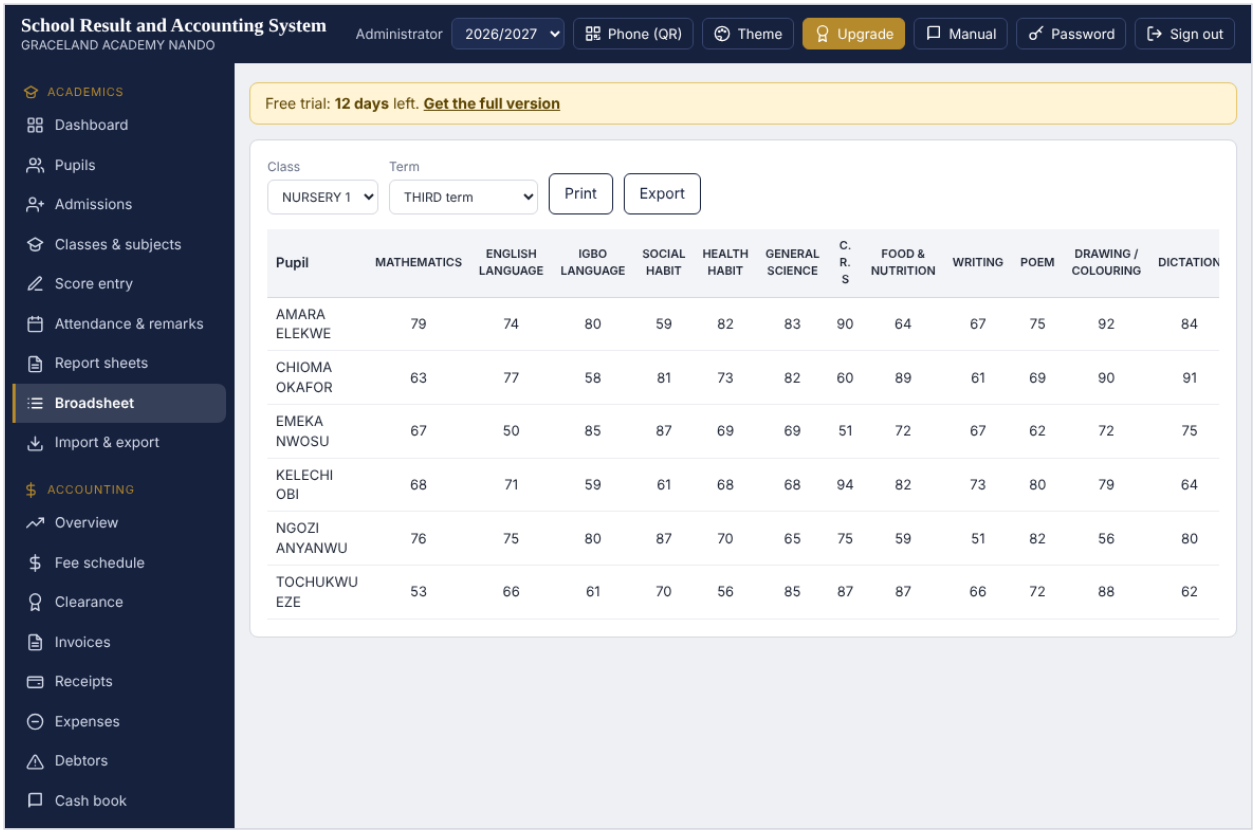

In the print window choose **A4**, set margins to **None** and turn on **Background graphics**. To make a PDF file, choose **Save as PDF** as the printer.

Yearly cumulative sheet: three terms, total of 300 and subject averages.

# 5. Broadsheet

**Broadsheet** lists every pupil's subject totals, overall total, average and position for a term or the whole year. Press **Print** to print it.

Class broadsheet.

# 6. Tips

- Positions are worked out among pupils in the same class, and only appear once a pupil has scores.
- The **session** menu at the top lets you look back at earlier sessions.
- If a pupil is in the wrong class ask the administrator to move them.

# 7. Up to three C.A tests, and other grading (new)

The administrator decides for each class whether it has 1, 2 or 3 C.A tests and what each is out of. **Score entry** shows exactly those columns with the maximum under each heading, so type marks up to that maximum. A column the class does not use is not shown. The total always adds up to 100. If the school uses the WAEC style, grades show as A1, B2, B3 and so on, with the key printed under the sheet.

# 8. Remarks and signatures: typed or automatic (new)

If the administrator chose **Automatic**, the remark and signature fields fill themselves from the pupil's average once scores exist, and you can still read them in the preview. If the choice is **Manual**, type them in **Attendance & remarks** as before. Ask the administrator which mode your school uses.

# 9. Using a phone, and messages (new)

On the school Wi-Fi you can open the system on your phone: ask the administrator to show the **Phone (QR)** code and scan it with the camera (it only opens the address, you still sign in yourself). Use the

**Messages** group to write to the administrator, other staff or the whole school. The **Theme** button changes colours for you only.
